PORTOFINO RESOURCES INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED NOVEMBER 30, 2025 AND 2024
(Unaudited, Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Portofino Resources Inc. (the “**Company**”) was incorporated on June 14, 2011, under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is Suite 520, 470 Granville Street, Vancouver, British Columbia, Canada. The Company’s shares are listed for trading on the TSX Venture Exchange (“**TSX-V**”) under the symbol “**POR**”. On October 10, 2018, the Company incorporated a subsidiary under the laws of Argentina, Portofino Argentina S.A.. The subsidiary is owned 95% by the Company and 5% by the Company’s chief executive officer. The subsidiary is not consolidated as it does not maintain independent accounting records and all transactions are included in the Company’s books.

The Company’s principal business activities include the acquisition and exploration of mineral properties. As at November 30, 2025, the Company had not yet determined whether the Company’s mineral property assets contain mineral resources that are economically recoverable. The recoverability of amounts expended for exploration and evaluation activities is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the properties or realizing proceeds from their disposition.

As at November 30, 2025, the Company had a deficit of \$15,341,527 and a working capital deficiency of \$1,420,788. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. The outcome of these matters cannot be predicted at this time and indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these unaudited financial statements.

2. MATERIAL ACCOUNTING POLICIES

a) Statement of compliance

These financial statements have been prepared in accordance with IFRS Accounting Standards (“**IFRS**”) issued by the International Accounting Standards Board (“**IASB**”). These financial statements were authorized for issue in accordance with a resolution from the Board of Directors on January 29, 2026.

b) Basis of presentation

These financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value, as explained in the accounting policies set out below. In addition, these unaudited financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The accounting policies set out below have been applied consistently to all years presented in these unaudited financial statements.

PORTOFINO RESOURCES INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED NOVEMBER 30, 2025 AND 2024
(Unaudited, Expressed in Canadian dollars)

c) Exploration and evaluation expenditures

Costs incurred with respect to the acquisition, exploration and evaluation (“**E&E**”) of the Company’s mineral properties, including acquisition costs, are expensed as incurred until the technical feasibility and commercial viability of extracting the mineral resource is determined.

Once the technical feasibility and commercial viability of extracting the mineral resource has been determined, the property would be considered a mine under development and would be classified as “mines under construction”. E&E assets would be tested for impairment before the assets are transferred to development properties. Following transfer, the Company’s policy is to assess each significant asset for impairment when facts and circumstances suggest the carrying amount of an asset may exceed its recoverable amount. The recoverable amount is the higher of the asset’s fair value less costs to sell and value in use. These assessments require the use of estimates and assumptions such as long-term commodity prices, discount rates, future capital requirements, exploration potential and operating performance.

d) Share-based payments

Share-based payments to employees and others providing similar services are measured at the estimated fair value of the instruments issued on the grant date and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The amount recognized as an expense is adjusted to reflect the number of awards expected to vest. The offset to the recorded cost is to contributed surplus.

Consideration received on the exercise of stock options is recorded as share capital and the related contributed surplus is transferred to share capital. Charges for options that are forfeited before vesting are reversed from equity settled share-based payment reserve.

Share-based compensation expense relating to deferred share units is accrued over the vesting period of the units based on the quoted market price. As these awards can be settled in cash, the expense and liability are adjusted each reporting period for changes in the underlying share price.

The fair value of the stock options and agent warrants is determined using the Black-Scholes option pricing model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on historical experience), expected dividends, expected forfeitures, and risk-free interest rate (based on government bonds).

e) Foreign currency

The Company’s presentation and functional currency is the Canadian dollar. Transactions and balances in currencies other than the Canadian dollar, the currency of the primary economic environment in which the Company operates are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at exchange rates prevailing on the statement of financial position date are recognized in the statement of comprehensive loss.

f) Decommissioning, restoration, and similar liabilities

The Company has no material restoration, rehabilitation, and environmental obligations as the disturbance to date is insignificant. An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, along with a

PORTOFINO RESOURCES INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED NOVEMBER 30, 2025 AND 2024
(Unaudited, Expressed in Canadian dollars)

corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on a number of factors such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates. Discount rates using a pre-tax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the units-of-production or the straight-line method. The corresponding liability is progressively increased as the effect of discounting unwinds creating an expense recognized in profit or loss.

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to \$nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable.

g) Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

h) Financial instruments

Financial instruments consist of financial assets and financial liabilities and are initially recognized at fair value along with, in the case of a financial asset or liability not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit and loss.

The Company classifies its financial assets and financial liabilities in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- ii. those to be measured at amortized cost.

h) Financial instruments (continued)

The classification of financial assets depends on the business model for managing the financial assets and the contractual terms of the cash flows. Financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding, are generally measured at amortized cost at the end of subsequent accounting periods. All other financial assets are measured at their fair values at the end of subsequent accounting periods, with any changes taken through profit and loss or other comprehensive income.

Financial liabilities are classified as those to be measured at amortized cost unless they are designated as those to be measured subsequently at fair value through profit or loss (irrevocable election at the time of recognition). Any fair value changes due to credit risk for liabilities designated at fair value through profit and loss are recorded in other comprehensive income.

PORTOFINO RESOURCES INC.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED NOVEMBER 30, 2025 AND 2024
(Unaudited, Expressed in Canadian dollars)

The Company has implemented the following classifications for financial instruments:

- The Company's financial assets are cash, amounts receivable and marketable securities. Cash is classified as fair value through profit or loss and any changes to fair value subsequent to initial recognition are recorded in profit or loss for the period in which they occur. Amounts receivable are classified as amortized cost.
- Financial liabilities comprise accounts payable and loan payable. These financial liabilities are classified as, and are measured at, amortized cost using the effective interest method. Interest expense is recorded in profit or loss, as applicable.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

The following table summarizes the classification of the Company's financial instruments under IFRS 9, Financial Instruments:

	Classification
Financial assets	
Cash	FVTPL
Amounts receivable	FVTPL
Marketable securities	FVTPL
Financial liabilities	
Accounts payable	Amortized cost
Loan payable	Amortized cost

IFRS 9, Financial Instruments, uses an expected credit loss model impairment model. The impairment model is applicable to financial assets measured at amortized cost where any expected future credit losses are provided for, irrespective of whether a loss event has occurred as at the reporting date.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these unaudited financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These unaudited financial statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions, and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that the actual results differ from assumptions made, relate to, but are not limited to, the following:

Significant accounting estimates

- the determination of fair values of share-based payments and finder's warrants;
- the measurement of deferred income tax assets and liabilities;
- the determination of the recoverability of amounts receivable; and
- the fair valuation of marketable securities.

(Unaudited, Expressed in Canadian dollars)

Significant accounting judgment

- i. the evaluation of the Company's ability to continue as a going concern.

4. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

A number of new standards, and amendments to standards and interpretations, are not yet effective for the six-month period ended November 30, 2025, and have not been early adopted in preparing these financial statements. These new standards, and amendments to standards and interpretations are either not applicable or are not expected to have a significant impact on the Company's financial statements.

5. MARKETABLE SECURITIES

During the fiscal year ended May 31, 2023, the Company received common shares of a public company with common directors with the Company in order to settle amounts receivable from the prior year. The Company received 3,000,000 common shares with a fair value of \$0.035 per share. During the fiscal year ended May 31, 2024, the shares were consolidated on a two (2) old for one (1) new basis. During the period ended November 30, 2025, the shares were further consolidated on a four (4) old for one (1) new basis.

During the six-month period ended November 30, 2025, the Company received common shares of Delta Resources limited ("Delta"), see Note 7.

Yergo Lithium Project, Catamarca (Argentina)

On September 25, 2023, the Company executed a binding agreement (the “**Binding Agreement**”) to acquire all rights and title to the Yergo Lithium Project concessions. Pursuant to the Binding Agreement, the Company paid consideration of \$811,506. In accordance with the terms of the Binding Agreement, the Company has acquired 100% of the concession rights associated with the 2,932-hectare Yergo Lithium Project in Catamarca Province, Argentina.

Pursuant to the original option agreement dated February 15, 2019, and the revised agreement dated August 14, 2020, the Company paid a total of \$38,845 to the Yergo optionor.

South of Otter, Red Lake, Ontario (Canada)

Pursuant to an option agreement dated September 6, 2019, with 1544230 Ontario Inc. (the “**SO Vendor**”), the Company was granted an option to acquire a 100% undivided interest in the South of Otter property in the Red Lake area of Northern Ontario, Canada.

To acquire a 100% interest in the South of Otter property, the Company has issued 500,000 common shares and is to make payments over a 4-year period to the SO Vendor totaling \$70,000, as follows:

- a) \$15,000 (paid) on signing,
- b) 500,000 shares (issued) following receipt of TSX-V approval of this transaction on October 7, 2019,
- c) \$8,000 (paid) on the first anniversary of TSX-V approval,
- d) \$10,000 (paid) on the second anniversary of TSX-V approval,
- e) \$12,000 (paid) due on the third anniversary of TSX-V approval, and
- f) \$25,000 (paid) due on the fourth anniversary of TSX-V approval.

The SO Vendor will retain a 1.5% NSR, but Portofino has the right to purchase one half of the NSR (.75%) at any time up to commencement of production for a payment of \$400,000.

On July 7, 2020, the claims owned by 1544230 Ontario Inc. were acquired by EMX Royalty Corp (“**EMX**”). The transfer of the title to the claims is still in process and have not been transferred to the Company’s name as at November 30, 2025, 2025.

During the fiscal year ended May 31, 2024, certain claims related to the South of Otter property were allowed to expire and subsequently re-acquired. A nine-month extension of time request was granted by the Ontario Ministry of Mines related to certain other claims; there is no change to the rights and obligations of EMX.

Gold Creek Property, Shebandowan, Ontario (Canada)

On May 11, 2020, the Company signed an option agreement with Gravel Ridge Resources Ltd. (“**Gravel Ridge**”), that allows the Company to earn a 100% interest in mining exploration claims held by Gravel Ridge, and located primarily in Duckworth Township, Ontario (the “**Gold Creek Property**”).

To acquire a 100% interest in the Gold Creek Property, the Company has agreed to issue 800,000 common shares of the Company to Gravel Ridge and make cash payments of \$70,600, as set out below:

- a) \$8,600 (paid) on signing,
- b) 400,000 shares (issued) following receipt of TSX-V approval of this transaction on May 21, 2020,
- c) \$12,000 (paid) and 400,000 shares (issued) due on the first anniversary of TSX-V approval,
- d) \$20,000 (paid) due on the second anniversary of TSX-V approval, and
- e) \$30,000 (paid) due on the third anniversary of TSX-V approval.

The Company has also granted the optionors a 1.5% NSR with a buyback of 0.75% NSR for \$500,000.

On August 10, 2020, the Company entered into an option agreement amendment with respect to the inclusion of additional mining claims (3 mining claims/50 mining cells) to the Gold Creek Property.

On August 21, 2020, the Company entered into an agreement with Mr. Philip Escher and Mr. Michael Tremblay to purchase 100% interest in 2 claims located in Duckworth Township, Ontario, contiguous to the Company’s Gold Creek Property. In consideration, the Company paid \$10,000 and issued 125,000 common shares as approved by the TSXV on September 4, 2020. The Property is subject to a 1.5% NSR and the Company has the right to purchase 0.5% of the NSR at any time up to commencement of production for a payment of \$300,000.

On September 15, 2021, the claims owned by Gravel Ridge were acquired by Solstice Gold Corp.

On June 27, 2024, the Company closed a claim purchase agreement with a private vendor that covers approximately 700 acres and is contiguous and to the north of the Gold Creek Property. To acquire 100%, the Company paid \$2,200 in cash and 250,000 shares of the Company. The Vendors retain a 1.25% NSR and the Company has the right to buyback 0.75% for \$200,000.

On June 27, 2024, the Company closed an option agreement with Delta Resources Ltd. (“**Delta**”) whereby the Company has granted Delta the exclusive right to acquire a 100% interest in its Gold Creek property.

The terms of the agreement include \$300,000 paid in cash and 2,000,001 shares of Delta, paid as follows:

- a) \$100,000 (received) in cash and 666,667 (received) shares of Delta on approval by the TSX-V;
- b) \$100,000 in cash (received) and 666,667 shares (received) of Delta on the 1st anniversary of Exchange approval; and
- c) \$100,000 in cash and 666,667 shares of Delta on the 2nd anniversary of Exchange approval.

The Company will retain a 2% NSR on the Gold Creek Property. Delta will have the option to buy back a 1.0% NSR at any time for \$1 million and will have a right of first refusal on the second 1.0% NSR, to a maximum of \$4 million.

capital structure, the Company may attempt to issue new shares or dispose of assets or adjust the amount of cash.

12. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

IFRS 7, Financial Instruments: Disclosures, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash and marketable securities, which are classified as Level 1. The carrying value of amounts receivable, accounts payable and loan payable approximate their fair values due to the relatively short periods of maturity of these instruments.

Assets measured at fair value on a recurring basis were presented on the Company's statements of financial position as at November 30, 2025, are as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	\$	\$	\$	\$
Cash	18,891	-	-	18,891
Marketable securities	34,333	-	-	34,333

Fair value

The fair value of the Company's financial liabilities approximates their carrying value as at November 30, 2025, because of the demand nature or short-term maturity of these instruments.

Financial risk management objectives and policies

The Company's financial instruments include cash, amounts receivable, marketable securities and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company is exposed to foreign currency risk related to cash payments and exploration expenditures that are denominated in US dollars and Argentine Pesos. The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada. Management does not hedge its exposure to foreign exchange risk and the Company's net exposure is limited.

(Unaudited, Expressed in Canadian dollars)

The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval (if required) and acceptance by regulatory authorities.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk to the extent that the cash maintained at the financial institution. The fair value interest rate risk on cash is insignificant due to their short-term nature. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist of cash and amounts receivable. To minimize the credit risk, the Company places these its cash with a high-quality financial institution. The Company is exposed to credit risk relating to amounts receivable from another publicly listed company. As at November 30, 2025, the Company's maximum credit risk is the carrying value of cash and amounts receivable.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.

The following table summarizes the maturities of the Company's financial liabilities as at November 30, 2025 based on the undiscounted contractual cash flows:

	Carrying value	Principal amount	Less than 1	1-5 years
	\$	\$	\$	\$
Accounts and accrued liabilities	1,215,418	1,215,418	1,215,418	-
